12. Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s).

Continuation of 11. does NOT place the application in condition for allowance because: Applicant argues that the prior art of Reidl teaches of a crimped structure and does not teach or suggest a non-crimped structure as defined in the instant claims. It should be noted that Reidl teaches that the structure can be crimped or bent (col. 5, II. 53-62), and therefore a bent structure, which is not a crimp, can provide the same arrangement. The instant claims while reciting a non-crimped arrangement do not preclude the presence of a bent arrangement as is alternatively taught by Reidl. Therefore the prior art teachings of Reidl are still held to teach the claimed invention and the claims, as they stand, lack sufficient structural differentiation over that of Reidl.
